

Exciting news, Organicycle members!

You can now download the Betterbin app from the App Store or Google Play. Betterbin is the app we use to get you everything you need to know about what is acceptable in your Organicycle cart. Currently, you access the app via a web URL: <https://betterbin.app>. Now, you'll be able to download it right to your phone.

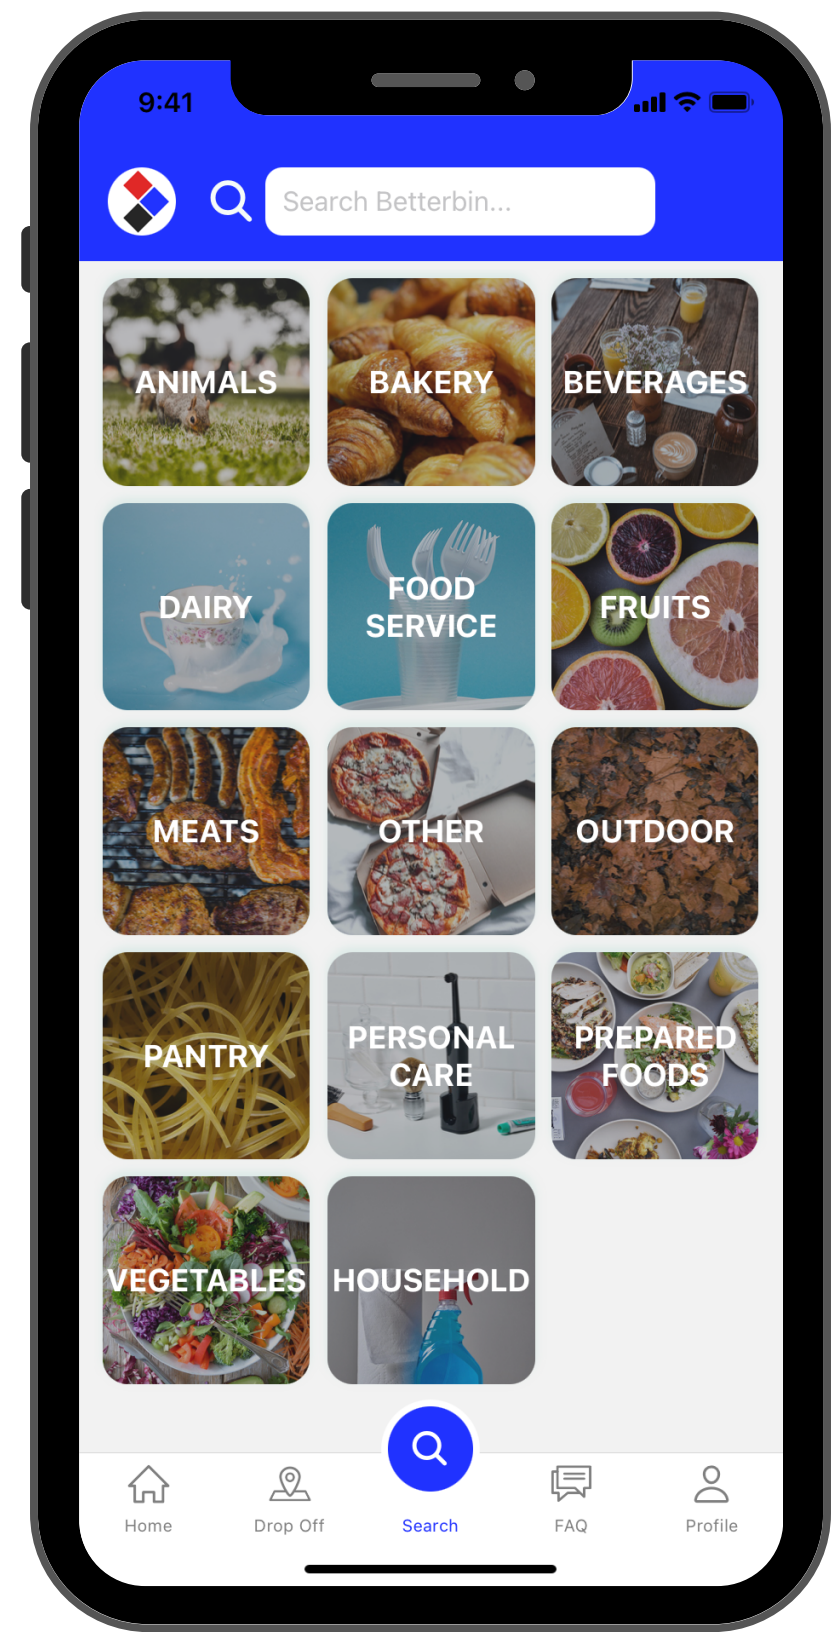

I'M ALREADY USING THE BETTERBIN APP

Awesome! You can stick with the web app or go to the App Store or Google Play, search for Betterbin and download. Log-in with the email and password you already use for Betterbin. Forgot your password? No problem. Reset your password or log in via the Google login option.

Why does the app need my email? When you search for a material or product that we don't have in the database, Betterbin will email you correct disposal instructions. Betterbin doesn't email you anything without strict Organicycle approval.

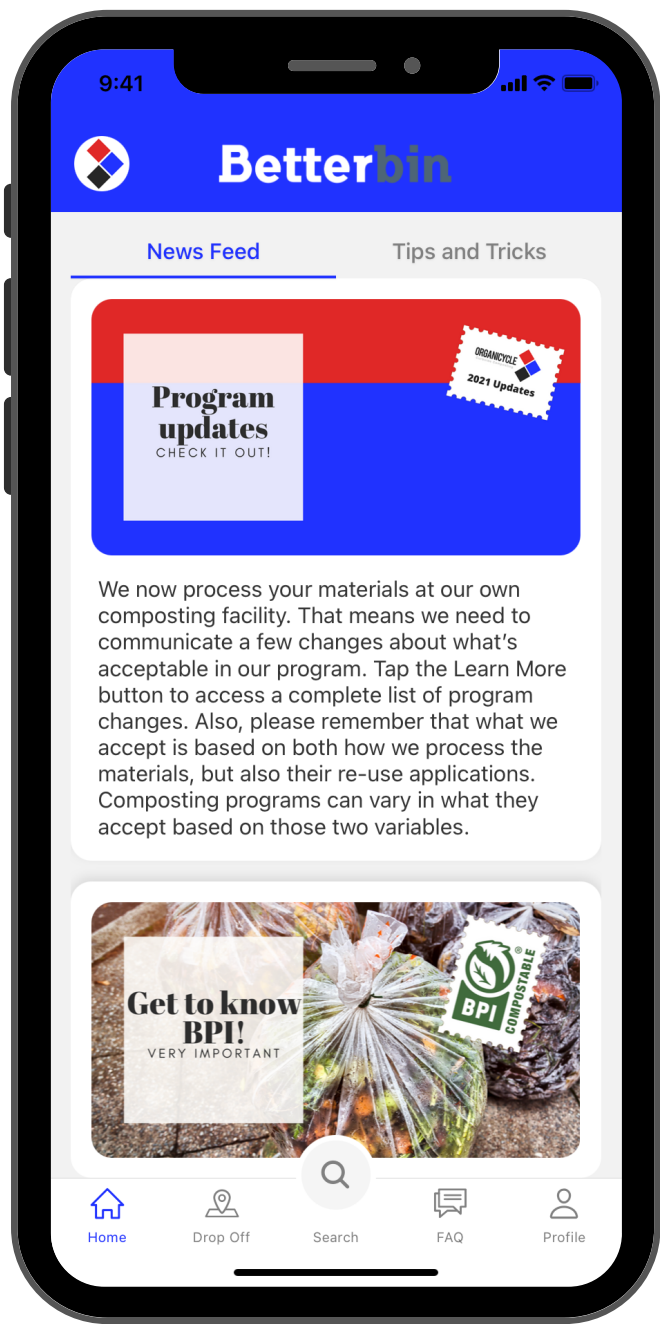

I HAVEN'T STARTED USING THE BETTERBIN APP

Now is the perfect time to get started! Head to the App Store or Google Play, search for Betterbin and download. You'll be prompted to create an account. Once you're in, you'll search for Organicycle as your community. That's it – you're in!

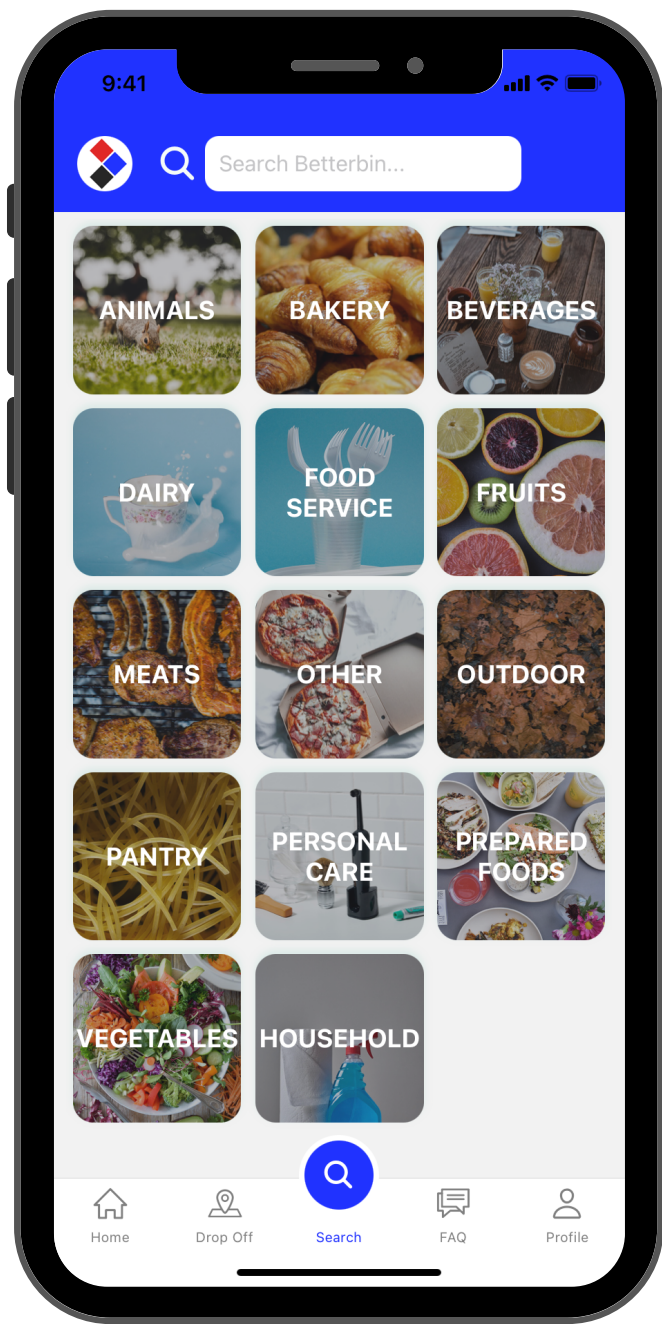

STEP 1

Find Organicycle program updates and tips and tricks for home composting

STEP 2

Search for products/materials to find what's acceptable in Organicycle carts

STEP 3

Get detailed disposal instructions based on Organicycle guidelines

STEP 4

Can't find a product? Send a product request and get an answer in your inbox!
